DETAILED ACTION
EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment to the most recent claims filed on 5 December 2008 was given in a telephone interview with Mr. Judson Champlin (Applicant's Attorney) on 5 February 2009.

The application has been amended as follows:

Claim 1, line 21, the phrase "the seal member and is configured to stir the secondary material when the movable member is removed from the fixing member." Was deleted and the phrase -- an eccentric portion of the seal member and is configured to stir the secondary material when the movable member is removed from the fixing member, whereby rotation of the moveable member relative to the fixing member causes rotation of the secondary material relative to the stirring projection pin thereby causing stirring of the secondary material. - - was inserted to better define the instant invention over the prior art of record.

Allowable Subject Matter

2. Claims 1-5, 7-11, and 13 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record nor the prior art reviewed during the Examiner's search disclosed a

cap containing a secondary material comprising a stirring projection pin formed on an eccentric portion of the seal member and is configured to stir the secondary material when the movable member is removed from the fixing member, whereby rotation of the moveable member relative to the fixing member causes rotation of the secondary material relative to the stirring projection pin thereby causing stirring of the secondary material.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shown are containers analogous to applicant's instant invention.
